

## **Postdoctoral Fellowship in Patient-Centered Outcomes Research (PCOR) and Qualitative Evaluation**

**Location:** University of Maryland School of Pharmacy, Baltimore, MD

**Description:** An exciting new postdoctoral fellowship opportunity is available with The PATIENTS Program ([www.patients.umaryland.edu](http://www.patients.umaryland.edu)) starting January or July 2017 within the University of Maryland Baltimore, School of Pharmacy's Department of Pharmaceutical Health Services Research. Fellowships provide multidisciplinary, advanced training to health services researchers and clinicians and prepare fellows for positions in academia, government, the pharmaceutical or insurance industries, and consulting. This position does not require a clinical degree but does require an interest in health-related research and training or experience conducting qualitative research.

Fellows engage in qualitative analysis and patient-centered outcomes research (PCOR) with activities funded by AHRQ, NIH, PCORI, other federal and state of Maryland government agencies, foundations, and private corporations. Training includes, but is not limited to, mentored research, grant-writing, and teaching experiences; it may also include coursework in PCOR.

Successful candidates will be involved in work with the AHRQ-funded PATIENTS Program as well as other PCORI-funded projects and other PCOR projects. The positions involve working closely with academic, patient, and other stakeholder partners.

Fellows receive a competitive salary and benefits.

**Qualifications:** Strong qualitative skills are required. Experience with research and/or training, and excellent communication, organizational, and time-management skills are desired. A PhD in a health-related discipline is desired, but clinicians with qualitative research training and/or experience are also encouraged to apply. Experience with community-based participatory research (CBPR) is desirable.

**How to Apply:** Applicants should submit a letter of intent, curriculum vitae, writing sample, and three letters of recommendation. Review of applications will start immediately and continue through early 2017. Screening interviews will be conducted by telephone. Finalists will be invited for an on-site interview in Baltimore. The University of Maryland is an equal opportunity/affirmative action employer. Minorities, women, protected veterans, and individuals with disabilities are encouraged to apply.

To apply or to receive more information, please contact Professor C. Daniel Mullins, PhD and send applications, preferably by email, to:
