

Post-Doctoral Fellowship in Outcomes and Comparative Effectiveness Research

Posted Date: April 24, 2017

Location: University of Maryland School of Pharmacy, Baltimore, MD

Description: Postdoctoral fellowship available starting immediately at the University of Maryland, Baltimore, School of Pharmacy in the Department of Pharmaceutical Health Services Research. The fellowship provides multidisciplinary, advanced training to researchers and clinicians, and prepares fellows for positions in the pharmaceutical or insurance industries, consulting, academia, and government.

Fellows will engage in public health program evaluation, analyses of large claims and electronic medical record data sets for epidemiologic and pharmaco-economic studies and comparative effectiveness research, with activities funded by the FDA, DHMG, BHA, SAMHSA, AHRQ, PCORI, NIH, foundations, and private corporations.

Training includes mentored research, grant-writing, publication, presentation, and teaching experiences; it may also include coursework in comparative effectiveness research, epidemiology, pharmaco-economics, modeling, methods, quality of care and health services research. This position involves working closely with on-campus and external partners.

Fellows receive a competitive salary and benefits.

Qualifications: PhD, ScD, or DrPH in epidemiology, economics, health policy, social sciences, or health-services research is required. Clinical degree (PharmD, DPN, MD, DO or DPN) with research training is considered. Excellent communication, organizational, inter-personal, and time-management skills are a must. Research experience is desired. Knowledge of SAS, R, and SQL, or data visualization software is a plus.

How to Apply: Applicants should submit a letter of interest, curriculum vita, and two letters of recommendation. Review of applications will start immediately. Finalist interviews will take place on-site in Baltimore following telephone screening interviews.
